PROPERTIES AND APPLICATION

CURTESOFT GH is a fully synthetic lubricant with unique properties due to the emulsifiers it contains. It does not oxidize and when this product is used, a soft touch is obtained on the skin.

CURTESOFT GH is a very stable emulsion. It can be used in chrome tanning and retanning processes.

CURTESOFT GH has a very high bond strength with leather fibers, it is also a very effective substance for the penetration of the emulsion into the skin. In addition, it improves the hydrophilic character of the skin without changing the moisture content.

CURTESOFT GH has the feature of cleaning wool or bristles. Therefore, it is an ideal lubricant for fur production.
